

Industrial Scale's Vision, Mission Statement and Company Values

VISION: The #1 trusted team for safety and professionalism in the weighing industry.

MISSION: Safely protecting client profits and reputation through professional sales and service of quality weighing solutions.

VALUES: Customer Focus- Integrity- Professionalism- Mutual Respect

Why should you choose Industrial Scale Ltd.

- We are registered to the ISO 9001:2008 Standard and we are Saskatchewan's first scale company accredited to perform scale inspections on behalf of Measurement Canada and COR Safety Accredited.
- We are a locally owned Saskatchewan company and have been serving Saskatchewan since 1978. We have an office in both Regina and Saskatoon to further serve our customers.
- Our offices are open Monday to Friday 8:00 -5:00. We have cellular phone coverage and a toll free number which allows you to reach us for your emergencies.
- Our maintenance customers receive 24 hour emergency coverage, minimizing downtime.
- Our maintenance customers receive preferred customer priority emergency service.
- We have in-house service to provide component repairs to your digital equipment, lowering the repair and maintenance costs by having faster turn around of repairs, minimizing downtime.
- We sell a complete line of scales (Precision, Industrial, Retail) and scale systems to meet all your needs. If we cannot help you we will refer you to someone who can.
- We service all makes and models of scales including Mettler Toledo.
- We are the Saskatchewan Dealer for most brands of weighing equipment as well as the Mettler Toledo Authorized Sales and Service Distributor for Saskatchewan.
- We have 7 full service Heavy-Duty Test Trucks with 10,000kgs of certified test weights per truck and 7 Light-Duty Service Vans each carrying 1000kgs of certified test weights
- We have qualified technicians that receive continuous upgrading to their service education.
- We have established a safety program that meets the Occupational Health and Safety standards. Our technicians have training certificates in WHMIS, H2S Alive, Fall Protection, and Confined Space Entry with Safety/Spark Watch.
